KEVIN NHIM

FULL-STACK SOFTWARE DEVELOPER | BACKEND, FINTECH & AUTOMATION

Phnom Penh, Cambodia | Kevinnhim123@gmail.com | github.com/windymaster009
Telegram: t.me/nhimkevin

PROFILE

Software developer experienced in payment operations, API integrations, admin and merchant tools, and automation. Builds practical full-stack applications and self-hosted services using JavaScript/TypeScript, Python, React, Node.js, Linux and databases.

PROFESSIONAL EXPERIENCE

Software Developer | Payment Platform — Current

Backend services and admin/merchant workflows used in fintech operations and UAT.

- Settlement and payout name verification, receipt downloads, manual transfers and transaction search.
- Audit logging, operational validation, queue-backed scheduler restarts, API integration and debugging.

IT Support | CISA — From Nov 2022

Hardware/software troubleshooting, workstation support, networking and daily operational maintenance.

Independent Developer | Personal & open source — Ongoing

Telegram commerce, file tools, Android utilities, automation and Linux/Raspberry Pi services.

Earlier: Freelance work (Bongthom), Jun-Sep 2022; Solar Home, Jan-Jun 2022.

SELECTED PROJECTS

VaultHub | Bank inventory & operations — 2026

Access-aware credential tools, Excel import validation, inventory tracking and audit/UX features.

Telegram E-Shop | Python, Telegram, MongoDB — 2026

Digital product storefront, inventory, wallet/KHQR payments and automated ABA message matching.

WindyCast | Android & Windows streaming — 2026

In-development local game mirroring with QR pairing and capture/receiver applications.

Telegram Drive | React, TypeScript, Tauri — 2026

File management via Telegram storage, with sharing, metadata editing, search and folders.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, PHP, HTML, CSS | Frontend: React, Next.js, Vue, Tailwind | Backend: Node.js, REST APIs, FastAPI, Laravel | Tools: MongoDB, Redis, Git, Docker, Linux, PM2, Raspberry Pi, Cloudflare Tunnel, Tailscale.

EDUCATION

National Polytechnic Institute of Cambodia (NPIC) - Computer Science (2020-2024)

Pannasastra University of Cambodia (PUC) - Loyola School (2018-2020)
